Produced:
Eureka

Miles Transported:
To Arcata: 11
To Eureka: 3

Sustainable Practices:

Our apiary management uses a non-chemical, sustainable approach to mite control.

Our bulk honey is bottled in recycled 5-gallon containers and is available in bulk where customers can use and reuse their own containers.

Non chemical pest control measures include supplemental feeding of both sugar syrup and pollen substitutes to reduce nutritional stress on honeybees when called for. Re-queening all colonies yearly and periodic powdered sugar dusting for varroa mite control. I use between 10 and 25 locations to keep our bees. We pollinate almond orchards in Stanislaus County. I currently operate 250 bee colonies.
