Sustainable Practices:

Our company buys local whenever it's available, usually from June to late October. Some minimally used ingredients like cilantro and jalapenos are available longer. We will always buy from a local source before seeking product from outside of Humboldt County.

Then we buy from only reputable farms, such as Del Cabo-Jacobs Farm, which are also committed to sustainable agriculture and fair treatment of farm workers.

All our products are hormone-free with no genetically modified organisms and no animal products containing antibiotics.
