Sustainable Practices:

We recycle and compost the majority of the materials we use in our facility.

There is very little waste. Currently, we distribute only locally and to reduce the amount of gas we use, we combine our deliveries with other small, local businesses.

We use parsley and garlic grown by local farmers and tofu from the Tofu Shop in Arcata. The rest of our ingredients come from Falcon Trading Company in Pajero, Calif.

Owned By:

Wildflower Specialty Foods is owned and run by Conny Pena-Martin.

She began working at the Wildflower Cafe in 1992 while attending Humboldt State University.

On a whim she decided to buy the cafe with a partner and also to sell the cafe's staple salad dressing wholesale.

After Conny sold the cafe in 2005, she kept the salad dressing end of the business.

She continues to produce the fresh salad dressings in the Casa Lindra kitchen off of Erickson Way using local ingredients like tofu from the Tofu Shop.
